In some cases, it may be medically necessary for you to exceed the preset limits. In those instances, Prior Authorization is required. In such cases your doctor may initiate Prior Authorization by calling RxBenefits toll-free at 1.800.334.8134. Many drugs are subject to quantity limitations for patient safety based on FDA guidelines. Your plan has identified the following drug categories for Quantity Limits.

Prior Authorization and Appeals

If a prescription drug claim is wholly or partially denied, you or your authorized representative has the right to appeal the decision. You or your authorized representative may appeal the denial no later than 180 days after receiving notice of an adverse claim decision. Appeals of prescription drug claims are handled by RxBenefits and are decided in accordance with the terms of the plan document. Following a clinical review, one of four actions will occur: the medication is approved, the medication claim is denied, the doctor may decide to withdraw and prescribe a different medication, or the reviewer can dismiss the claim due to lack of communication from the prescriber. If denied, the appeal process is available. Your prior authorizations are handled by RxBenefits.

The following medications may require a prior authorization under your plan:

- Allergen Extracts
- Migraine Agents
- Oral Anti-hyperlipidemic
- Specialty Medications
- Topical Anesthetics
- Any GLP-1 medication

The Appeal Process

If denied, the member may appeal the decision. Upon appeal, a second pharmacist reviewer will evaluate the prior authorization and make a decision (approved/denied). If denied a second time, a final appeal may be made, which is forwarded to an outside medical reviewer. If denied, there are no further appeals.

Your doctor may initiate the Prior Authorization, quantity limit, high dollar claim review or any other rejection process by calling RxBenefits at 1.800.334.8134.
